

# Veeam Data Platform 23H2 Update

## What's New

### Detect and identify cyberthreats

#### Early threat detection<sup>NEW</sup>

AI-powered built-in Malware Detection Engine performs low-impact inline entropy and file extensions analysis during backup for immediate detection

#### Proactive threat hunting<sup>NEW</sup>

Backup anomalies are instantly reported into ServiceNow and other SIEM tools of your choice so you can immediately perform triage and reduce further risk to your data

#### Get a second opinion<sup>NEW</sup>

Let your cyber-threat tool report infections directly into the Veeam Incident API, marking existing restore points as infected or trigger backup

### Respond and recover faster from ransomware

#### Avoid reinfection<sup>NEW</sup>

YARA content analysis helps to pinpoint identified ransomware strains to prevent reintroduction of malware into your environment

#### Automate clean recovery<sup>ENHANCED</sup>

Perform orchestrated recovery of an entire environment using malware-free restore points

#### Recover with precision<sup>NEW</sup>

Perform point-in-time recovery to the moment prior to infection with the I/O Anomaly Visualizer, ensuring the lowest possible data loss thanks to Veeam CDP

### Secure and compliant protection for your data

#### Guarantee survival<sup>NEW</sup>

Prevent accidental or malicious deletion or encryption of backups by employing a zero-trust architecture, "Four-eyes" admin protection and immutable backups

#### Verify security and compliance<sup>ENHANCED</sup>

Ensure recovery success with automated scans using the Security & Compliance Analyzer, leveraging infrastructure hardening and data protection best practices

#### Put the spotlight on malware<sup>NEW</sup>

Highlight threats, identify risks and measure the security score of your environment in the Veeam Threat Center

# Veeam Offering Portfolio

Veeam Data Platform Editions	Backup and Recovery	Monitoring and Analytics	Recovery Orchestration	Ransomware Warranty (add-on)
Premium	●	●	●	●
Advanced	●	●		
Foundation	●			
Supporting product components	<b>Veeam Backup &amp; Replication</b> <i>Includes AWS*, Azure* and Google</i>	<b>Veeam ONE</b>	<b>Veeam Recovery Orchestrator</b>	

## Also Available:

- Veeam Backup for Microsoft 365\*
- Veeam Backup for Salesforce
- Kasten K10 by Veeam
- Veeam Data Platform Essentials for Small Business

## Service Provider Offerings

- Purpose-built offerings for [Service Providers](#)
- [Veeam Service Provider Console](#) – remote-managed backup and DR
- [Veeam Cloud Connect](#) – off-site backup and DRaaS

\* Available also in Veeam hosted BaaS offerings

# Veeam Data Platform 23H2 New Features by Edition

## Foundation

- Inline Malware detection**
- Syslog Integration**
- Veeam Incident API**
- I/O Anomaly Visualizer**
- Multi-admin Authorization**
- Backup of Object Storage**
- AI Powered Assistant**
- CDP Enhancements**
- Enterprise updates for IBM, HPE, SAP HANA, Dell and NetApp**

## Advanced

- All features of Foundation +**
- Veeam Threat Center**
- YARA Rules**
- Key Management System (KMS) Integration**
- ServiceNow Integration**
- Real time reporting, analysis and issue remediation**

## Premium

- All features of Advanced +**
- DR to cloud with automated network quarantine**
- Recovery plan testing with malware scanning**
- In-guest scripts for Azure**
- Testing for CDP plans**
- Compliance and automated, clean and tested recovery**
